Naveen Raw Yadav

MERN Stack Developer

📞 +91 8109949129　✉ yadavraw123@gmail.com　📍 Indore, MP, India
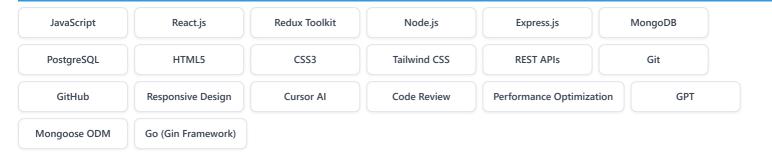

PROFESSIONAL SUMMARY

MERN Stack Developer with 2.5+ years of experience developing and maintaining responsive web applications using React, Redux Toolkit, Node.js, Express, MongoDB, and REST APIs. Skilled in JavaScript, HTML5, CSS3, and Tailwind CSS. Experience with Git version control, code reviews, and agile development methodologies. Strong focus on performance optimization, accessibility, and clean code practices.

CORE SKILLS

JavaScript	React.js	Redux Toolkit	Node.js	Express.js	MongoDB
PostgreSQL	HTML5	CSS3	Tailwind CSS	REST APIs	Git
GitHub	Responsive Design	Cursor AI	Code Review	Performance Optimization	GPT
Mongoose ODM	Go (Gin Framework)				

PROFESSIONAL EXPERIENCE

Senior Developer
Apr 2025 – Present

Universal Soft Lab, Indore

- Develop and maintain MERN stack features for Cosmos NBFC application using React, Redux Toolkit, Node.js, and MongoDB
- Implement responsive UI components and complex business logic for financial services modules
- Lead code reviews and establish coding standards for improved code quality and maintainability
- Collaborate with cross-functional teams to deliver features on schedule using Agile methodologies
- Mentor junior developers and implement best practices for development workflows

Jr. Software Developer
Oct 2023 – Jul 2024

Arun Data Processing

- Developed responsive user interfaces using React.js and JavaScript, improving Lighthouse performance scores
- Built RESTful APIs using Node.js and Express.js with MongoDB database integration and JWT authentication
- Implemented CRUD operations with data validation and error handling for improved application reliability
- Participated in Agile sprint planning and code reviews to ensure code quality and timely delivery
- Created reusable React components and optimized application performance for better user experience

Jr. Software Developer
May 2022 – Sep 2023

Epitaxial-IT Pvt Ltd

- Developed and maintained web applications using JavaScript, HTML5, and CSS3 for improved user experience
- Participated in code reviews and maintained comprehensive documentation for better code maintainability
- Implemented Git version control workflows including feature branches and pull requests
- Assisted with backend API integrations and ensured consistent UI design across application modules

PROJECTS

Cosmos NBFC Application
- Building comprehensive NBFC (Non-Banking Financial Company) platform
- Implementing loan management, customer portal, and financial reporting modules
- Developing secure authentication and role-based access control

Technologies: React.js, Redux Toolkit, JavaScript, Node.js, Express.js, MongoDB, JWT Authentication, Git

Company Website (Admin and User modules)
- Admin: Job Posting, Job Opening, Contact Details
- User: Home, About, Services, Contact

Technologies: React.js, JavaScript, CSS3, Go (Gin Framework), Git | Website: https://arundataprocessing.co.in/

ERP Modules (HR, Finance, Inventory)
- Designed user-friendly UI, implemented interactive flows
- Core CRUD with validations across modules

Technologies: HTML5, CSS3, JavaScript, React.js, Node.js, Git

EDUCATION

B.E. (Information Technology)
MITS, Gwalior

May 2015 – Jun 2019

M.Sc. (Mathematics)
Maharishi Mahesh Yogi Vedic University

Jul 2020 – Mar 2022 (Distance)

TRAINING

Cuvette — Apr 2024 – Dec 2024
- Completed comprehensive MERN stack training program with hands-on project development
- Built full-stack applications including Form Builder, Task Manager, and Food Delivery systems
- Implemented responsive user interfaces and learned deployment fundamentals for web applications

Projects:
• *Form Builder: Live Demo*
• *Task Manager: Live Demo*
• *Food Delivery: Live Demo*
