SUMMARY

Results-driven MERN Stack Developer with 3+ years of experience building and optimizing responsive web apps. Proficient in React.js, Node.js, and MongoDB for architecting scalable REST APIs and writing clean, maintainable code. Agile team player focused on delivering robust, user-centric solutions that elevate engagement and streamline workflows.

EXPERIENCE

Senior Developer

Universal Soft Lab

 04/2025 - Present  Indore, MP, India

Software development company specializing in finance and technology solutions

- Spearheaded **Cosmos NBFC platform** development using the MERN stack, delivering loan management and financial reporting modules.
- Architected scalable REST APIs with robust RBAC (Node.js, JWT) to ensure strict data integrity.
- Mentored junior developers and conducted code reviews to enforce modern coding standards.
- Collaborated with cross-functional Agile teams to consistently deliver high-impact features on schedule.

Jr. Software Developer

Arun Data Processing

 10/2023 - 07/2024  Ahmedabad, Gujarat

Data processing services company with a focus on software development

- Engineered highly responsive UIs using React.js, consistently achieving 90+ Lighthouse performance scores.
- Developed a dynamic dual-module (Admin/User) company website using React.js, Go (Gin), and MongoDB.
- Designed robust CRUD operations with comprehensive data validation and error handling.
- Created modular, reusable React components to accelerate Agile development workflows.

Jr. Software Developer

Epitaxial-IT Pvt Ltd

 05/2022 - 09/2023  Ahmedabad, Gujarat

IT services and software development company

- Built and maintained intuitive, user-centric web applications using JavaScript, HTML5, and CSS3.
- Streamlined Git workflows with effective feature branching and peer pull request management.
- Integrated complex backend APIs to ensure seamless data flow across frontend modules.

EDUCATION

M.Sc. in Mathematics

Maharishi Mahesh Yogi Vedic University

 07/2020 - 03/2022  Bhind, MP, India

B.E. in Information Technology

MITS, Gwalior

 05/2015 - 08/2019  Gwalior, MP, India

KEY ACHIEVEMENTS

★ Cosmos NBFC Platform

Successfully spearheaded the development of a complex financial platform that significantly improved customer engagement and service delivery capabilities.

SKILLS

JavaScript (ES6+)

React.js

Redux Toolkit

Node.js

Express.js

MongoDB

PostgreSQL

HTML5 & CSS3

Tailwind CSS

RESTful APIs

Git / GitHub

Mongoose ODM

Go (Gin)

Cursor AI

Agile / Scrum

PROJECTS

ERP Modules Suite

React.js, Node.js, HTML5/CSS3

- Designed an interactive UI and implemented end-to-end CRUD functionalities with robust form validations for HR, Finance, and Inventory modules.

Full-Stack MERN Apps

Cuvette Training Projects

- Built scalable full-stack applications (**Form Builder**, **Task Manager**, **Food Delivery**) leveraging the MERN stack, focusing on responsive design and modern deployment practices.
